

Import tax-due amounts, generate bills, and track each customer's status throughout the payment process. Property Tax also applies penalties as required, ensuring accurate and timely enforcement.

- Import tax charges calculated by another agency
- Manage billing, collection, and penalties
- Make adjustments and enter refunds

Integrates with:

Cash Receipting and General Ledger

FEATURES

Electronically import tax charges calculated externally by another agency, such as a county.

Create and print property tax bills.

Apply an adjustment to an account and document the reason for the adjustment.

Apply a refund to an account.

View transactions and balances for property tax accounts.

Track payments and produce past due notices.

Receipt payments directly in Property Tax Collection or in Cash Receipting.

Calculate and apply penalties.
