

The Employee Portal lets you easily respond to employee payroll inquiries.

**Empower your employees to get payroll information when they need it:**

- View and print pay stubs
- View employee contact information
- Convenient access for employees to view their own payroll information
- Historical and year to date totals for all deductions and employer contributions
- Pay history for current year or past years
- Federal and State exemptions claimed and any additional withholding amounts
- Balances for vacation, sick, compensation hours and other user defined leave types
- The employee portals are password protected
- Employees do not have access to the payroll system

### **eAccess\* Employee Portal**

Go beyond your desktop with **EACCESS**. Utilize your laptop for easy, convenient access via **BMS CLOUD HOSTING** to the **EMPLOYEE PORTAL**. There's no RDP to set up or application to install. BMS simply provides you a website link that delivers instantaneous access anytime and anywhere you have internet connection. It's safe, secure, and delivers added capabilities and efficiencies.

\*eAccess is only available with BMS Cloud Hosting. Variations of some mobile internet devices may affect software compatibility and limit functions.
