

EMAIL BILLS eliminates printing and postage by sending a customer's bill directly to their email address. This reduces staff time and lowers costs associated with each billing cycle.

Make your billing process simply easier.

- Easy customer account setup
- Easy to create and send email bills
- Easy to customize bill format with few limitations

Reports

Reports that help maintain and manage your settings can be ordered by:

- Account #
- Customer Name
- Route/Meter ID

Filter reports using email address and email bills setting:

- Every customer with an email address
- Every customer with email bills turned on
- Every customer with an email address and email bills turned on

*Requires Microsoft Outlook for complete compatibility.
