

Ensure accuracy and consistency of all your important information. Grids are used to identify and describe every space. Graphic pointers let you easily identify each plot and manage its data.

- Easily manage cemeteries of any size
- Output GIS information to your mapping program for easy sharing
- Manage multiple cemeteries with ease

Integrates with:
Cash Receipting

FEATURES

Record cemetery payments in the Cash Receipting application.

Associate plot and deceased info with an image of the cemetery.

Search entire cemetery sections to locate an individual record.

Use grids to identify and describe every space in any size and number of cemeteries:

- Physical Plot Information
- Plot Owner Information
- Occupant Burial Information
- Genealogy Information

Multiple levels of security control access to specific menus, fields, commands, and functions. Produce files with ArcGIS or any other mapping program (from GIS output). Create personalized reports, customized plot deeds, and form letters.
